

## **Assignment 06 – Due on 11/06/18, 1.00pm**

### ***Question 1***

What is architecture reconstruction? Briefly describe the various reconstruction activities and draw a diagram.

### ***Question 2***

Provide the context, problem, and a real world scenario for architecture reconstruction (different from class example).

### ***Question 3***

You oversee the football stadium at a Big Ten school and are in charge of security. Answer the following questions with a security mindset:

- i) What assets do you need to protect?
- ii) What threats will you defend against?
- iii) What countermeasures can you justify, in terms of costs and benefits?

### ***Question 4***

Listen/Watch the following webinar from SEI and submit a half page single spaced summary in your own words about the webinar.
